building on our reputation for over 70 years...

Plymouth Marine Laboratories

Client: Plymouth Marine Laboratories

Architect: Mitchell Architects Ltd

QS/Employers Agent: Macegreen/WWA

Project Value: £3.9Million

Overview: The contract consisted of a major refurbishment of the existing building and upgrading the Laboratory facilities over 6 main phases of work, whilst the building remained live throughout our works. The works entailed demolition of the existing labs/rooms, installation of new mechanical and electrical services to the new laboratories. The enhancement works were then completed with new doors, anti-slip flooring, suspended ceilings, decoration and Whiterock. The windows were also replaced and the building fabric was cleaned.

The final phase consisted of the main reception and entrance areas, in which we installed new reception desk, audio visual equipment and furnishings.
