building on our reputation for over 70 years...

River Yealm Hotel, Newton Ferrers

Client: Red Earth Developments

Architect: Grainge Architects

QS / Clients Agent: QSPM

Programme: 48 weeks

Value: £5.1M

Overlooking the River Yealm on the South Hams coastline, the former hotel has been completely redesigned to create six spacious luxury apartments whilst keeping many of the original external features of the hotel. Within the grounds of the former hotel, two new blocks have also been constructed to provide further contemporary apartments and also an individual striking house. The project was highly design led to create the sumptuous spaces and make the most of the fabulous views. The site includes a woodland which, following years of neglect, will be managed with a replanting programme spanning over 20 years.
