Hazelbrook Hydrotherapy Pool

Client: Somerset County Council

Architect: Grainge Architects

Engineer: Airey & Coles

Programme: 40 weeks

Project Value: £1.7m

Project Information:

Works at Hazelbrook Campus, at Selworthy School in Taunton, included the provision of a new purpose-built Hydrotherapy pool, adjacent to the main SEN school.

Included in the build was a new pool, changing facilities, offices and hoisting facilities to allow the use by everyone in the local community as well as the school.

The execution of the works in a 'live' environment was carefully managed throughout, with close relationships built with the school to ensure that any potential disruption was mitigated beforehand.
