Plymstock Fire Station

Client: Devon and Somerset Fire and Rescue Authority

Architect: AHR Architects

Engineer: AECOM Limited

Construction Programme: 40 weeks

Project Value: £2.3m

Project Information:

The new Plymstock Fire Station, located at Dean Hill, Plymstock is on the site of the previously demolished fire station.

Works consisted of a new two-appliance bay fire station, providing operational and living areas, arranged over two floors along with external RTC bay and hard standing.

The building allowed for the inclusion of specialist training facilities and was finished in a distinctive face brickwork and cladding combination.
